Symbols near the words indicate that they are a category heading. Cards show a combination of 4 symbols; one on each corner denoting membership in several groups. Colors depict the chakra associated with each Role. Other group colors relate tonal qualities of Soul Age, Covenant, and Personality augments. All characteristics are equal in creation by TAO. Cards possess vibrational qualities. Similar colors correlate members of that group into progressive scales. Numbering is done on the basis of Overleaf placement, and then are by additional significance in the Michael teachings.
